

City of Globe

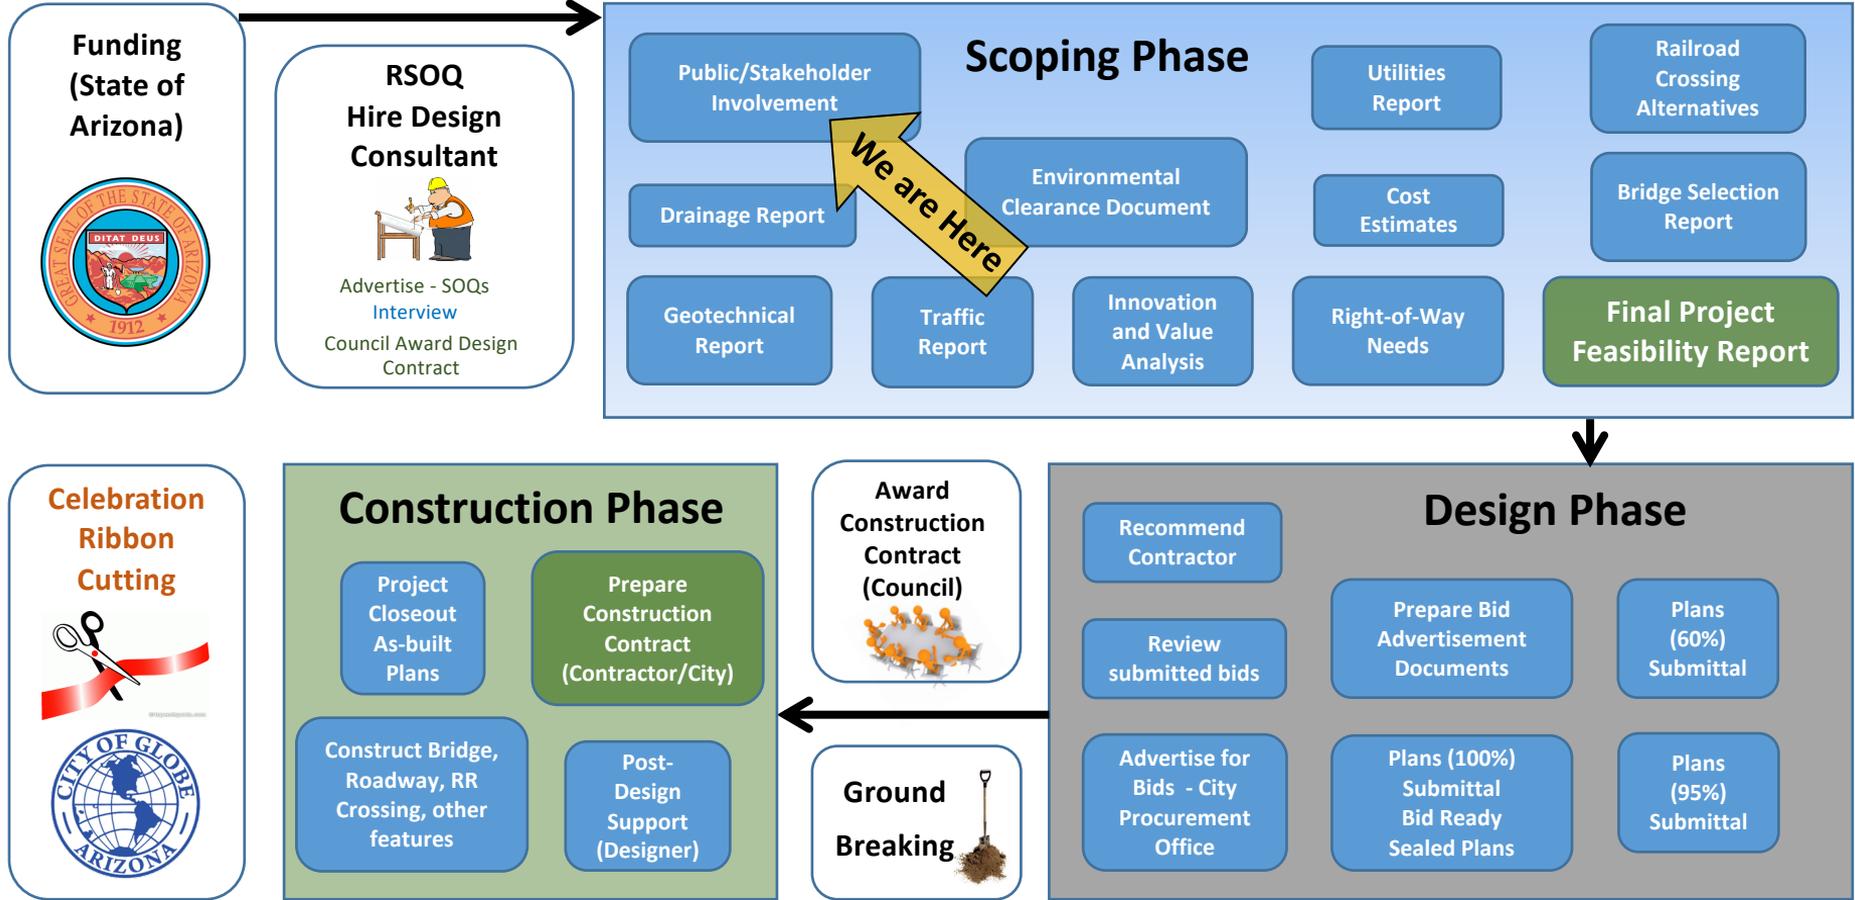

Roadway and Bridge Design Services

Public Meeting Presentation

July 23, 2020

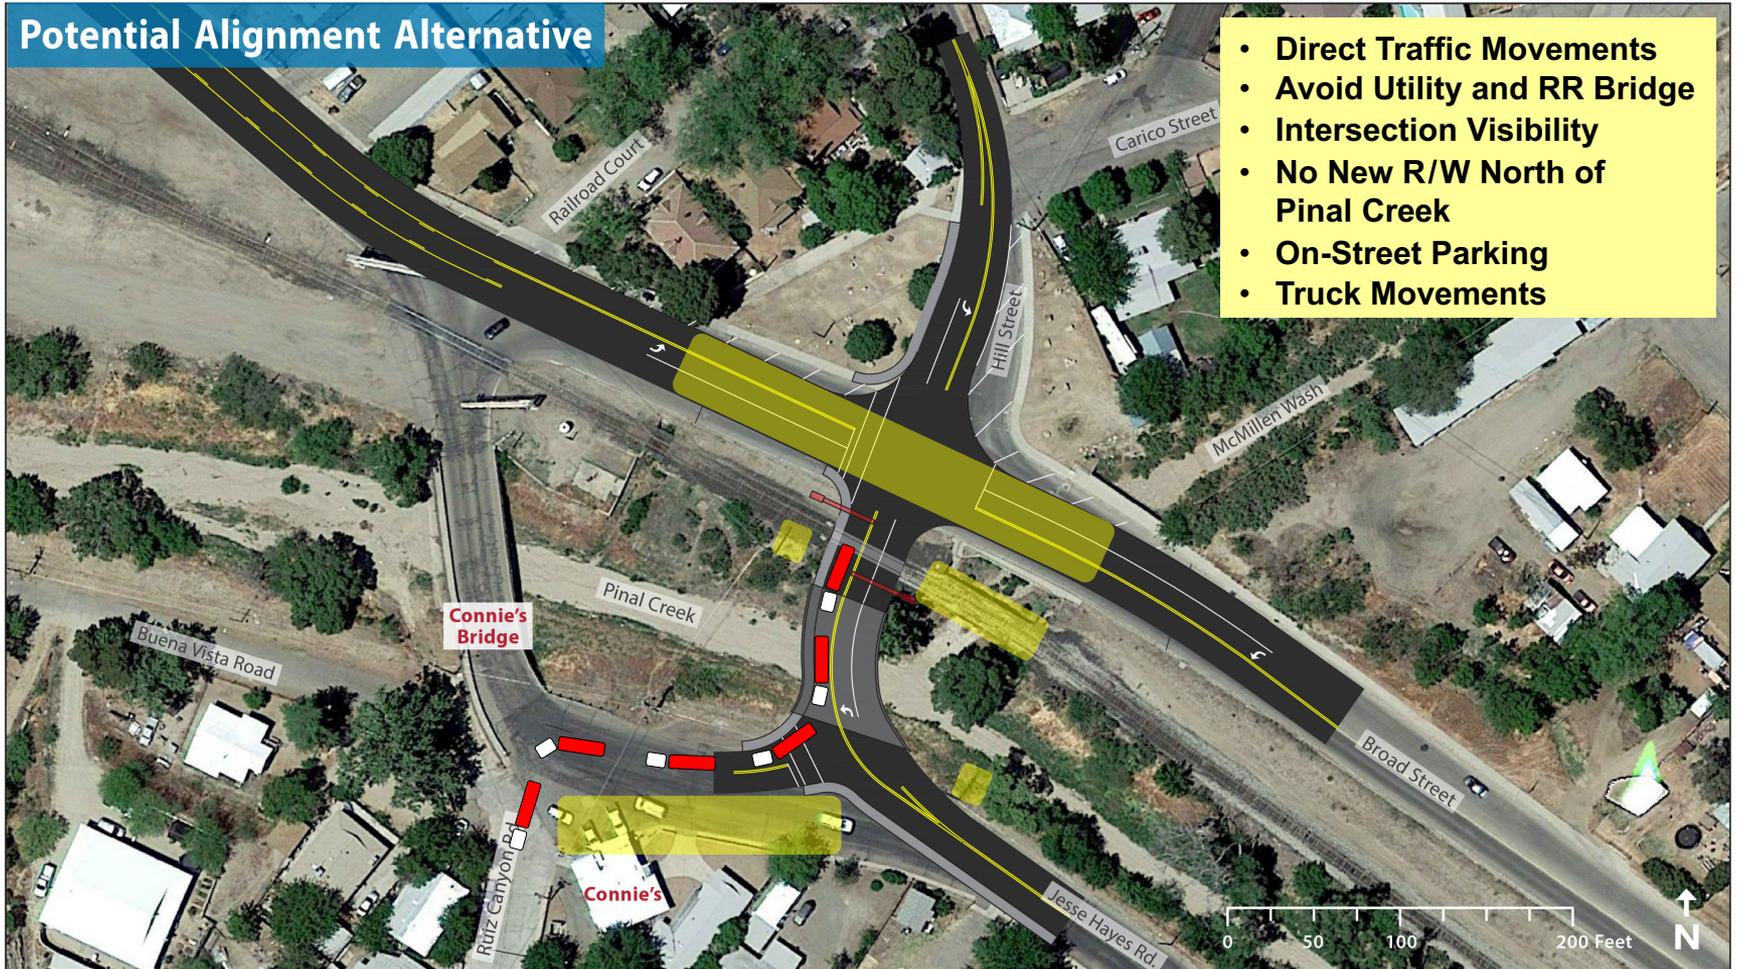

Project Flow Chart

Roadway Design

Potential Alignment Alternative

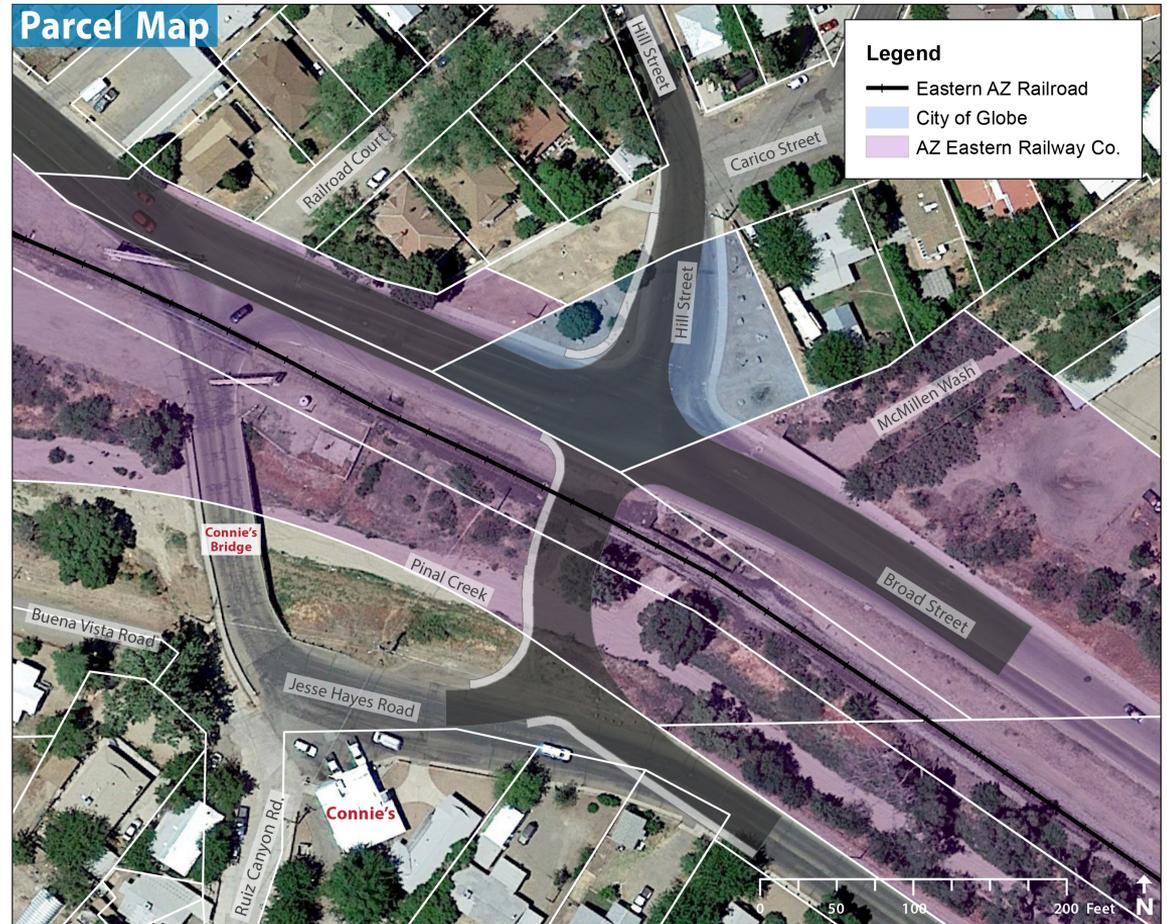

- Direct Traffic Movements
- Avoid Utility and RR Bridge
- Intersection Visibility
- No New R/W North of Pinal Creek
- On-Street Parking
- Truck Movements

Potential Property Impacts

Observations

- Potential improvements north of Broad Street are located within paved streets or City owned parcels
- Will need roadway easement from AZ Eastern Railway
- Potential improvements south of Pinal Creek within existing paved areas.

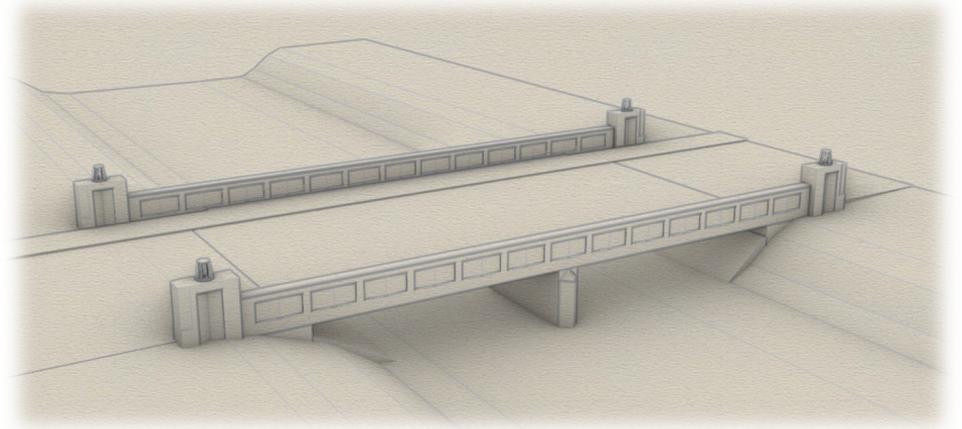

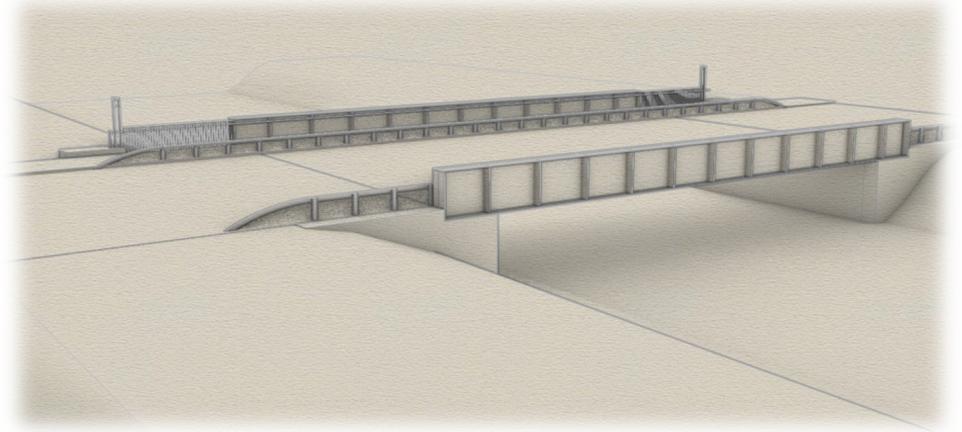

Bridge Aesthetics

Structure Type

- Determined by Study Area Features
 - Drainage
 - Soils
 - Railroad / Roadway Geometry

Aesthetics

- Bridge Railing / Abutments
 - General Theme (railroad, mining etc.)
 - Color Pallet
 - Surface Treatments
